SUMMARY

AI Integrated Backend Developer and AI Enthusiast with hands-on experience in building scalable web applications and AI-powered systems using Rag,n8n, FastAPI, Django,GenAi and modern AI tools. Experienced in real-world client projects and focused on backend engineering, system design, and startup-driven product development.

EDUCATION

B.Tech – Artificial Intelligence and Data Science

Dhanalakshmi Srinivasan Engineering College, Perambalur, Tamil Nadu

2023 – 2027

CGPA:7.73

EXPERIENCE

Freelance Web Developer and Automaiton n8n and Rag

Remote

- Developed and deployed web applications using FastAPI and Django
- Built REST APIs and integrated PostgreSQL/Supabase databases

Client Project – Multi-Vendor E-commerce Platform (Ongoing)

- Building scalable e-commerce system for 3 districts with vendor-based listings
- Implementing location-based filtering using FastAPI and PostgreSQL
- Including user app, seller app, delivery app, admin/sub admin panel and monolithic backend service

Client Project – Mobile Service Management System

- Developed system to manage service requests and customer tracking
- Designed backend APIs and improved operational workflow

PROJECTS

■ Career AI Platform (LLM-Based)

Built AI-powered system with Resume Analyzer, Mentor AI, and Internship Navigator. Developed backend using FastAPI and integrated LLM APIs.

Backend: <https://github.com/BHUVAN128/career-ai-backend/> | **Live:** <https://career-ai-frontend.vercel.app/>

■ District-Level E-commerce System

Designed backend for location-based marketplace with category filtering. Built scalable APIs and PostgreSQL database structure.

■ Secure Mod Management System (ETS2)

Developed secure system for managing and protecting mod files. Implemented automation and controlled access logic.(for client)

CERTIFICATIONS

IBM Full Stack Software Developer

Coursera (15 Courses)

AI/ML for Geodata Analysis

ISRO – IIRS, Dehradun

Python Fundamentals for Beginners

Great Learning

Learnathon 2024

ICT Academy (8 Courses)

Artificial Intelligence Workshop

IIT Madras – Top Engineers

AI Tools Workshop

be10x

HTML & CSS Certification

CodeKaro

TECHNICAL SKILLS

Languages : Python, JavaScript

Frontend : Html,Css,JavaScript

Backend : FastAPI, Django, REST APIs

AI / GenAI : LLM APIs, LangChain, RAG

Automation : n8n

Database : PostgreSQL, Supabase

Tools & Platforms : Git, GitHub, VS Code, Render, Vercel,Docker,Postman

SOFT SKILLS

- Problem Solving
- Logical Thinking
- Communication
- Client Handling

STRENGTH

Punctual | Consistent Learner | Adaptability | Startup Mindset

LANGUAGES

English

Tamil
